MY FIRST
PUZZLE BOOK

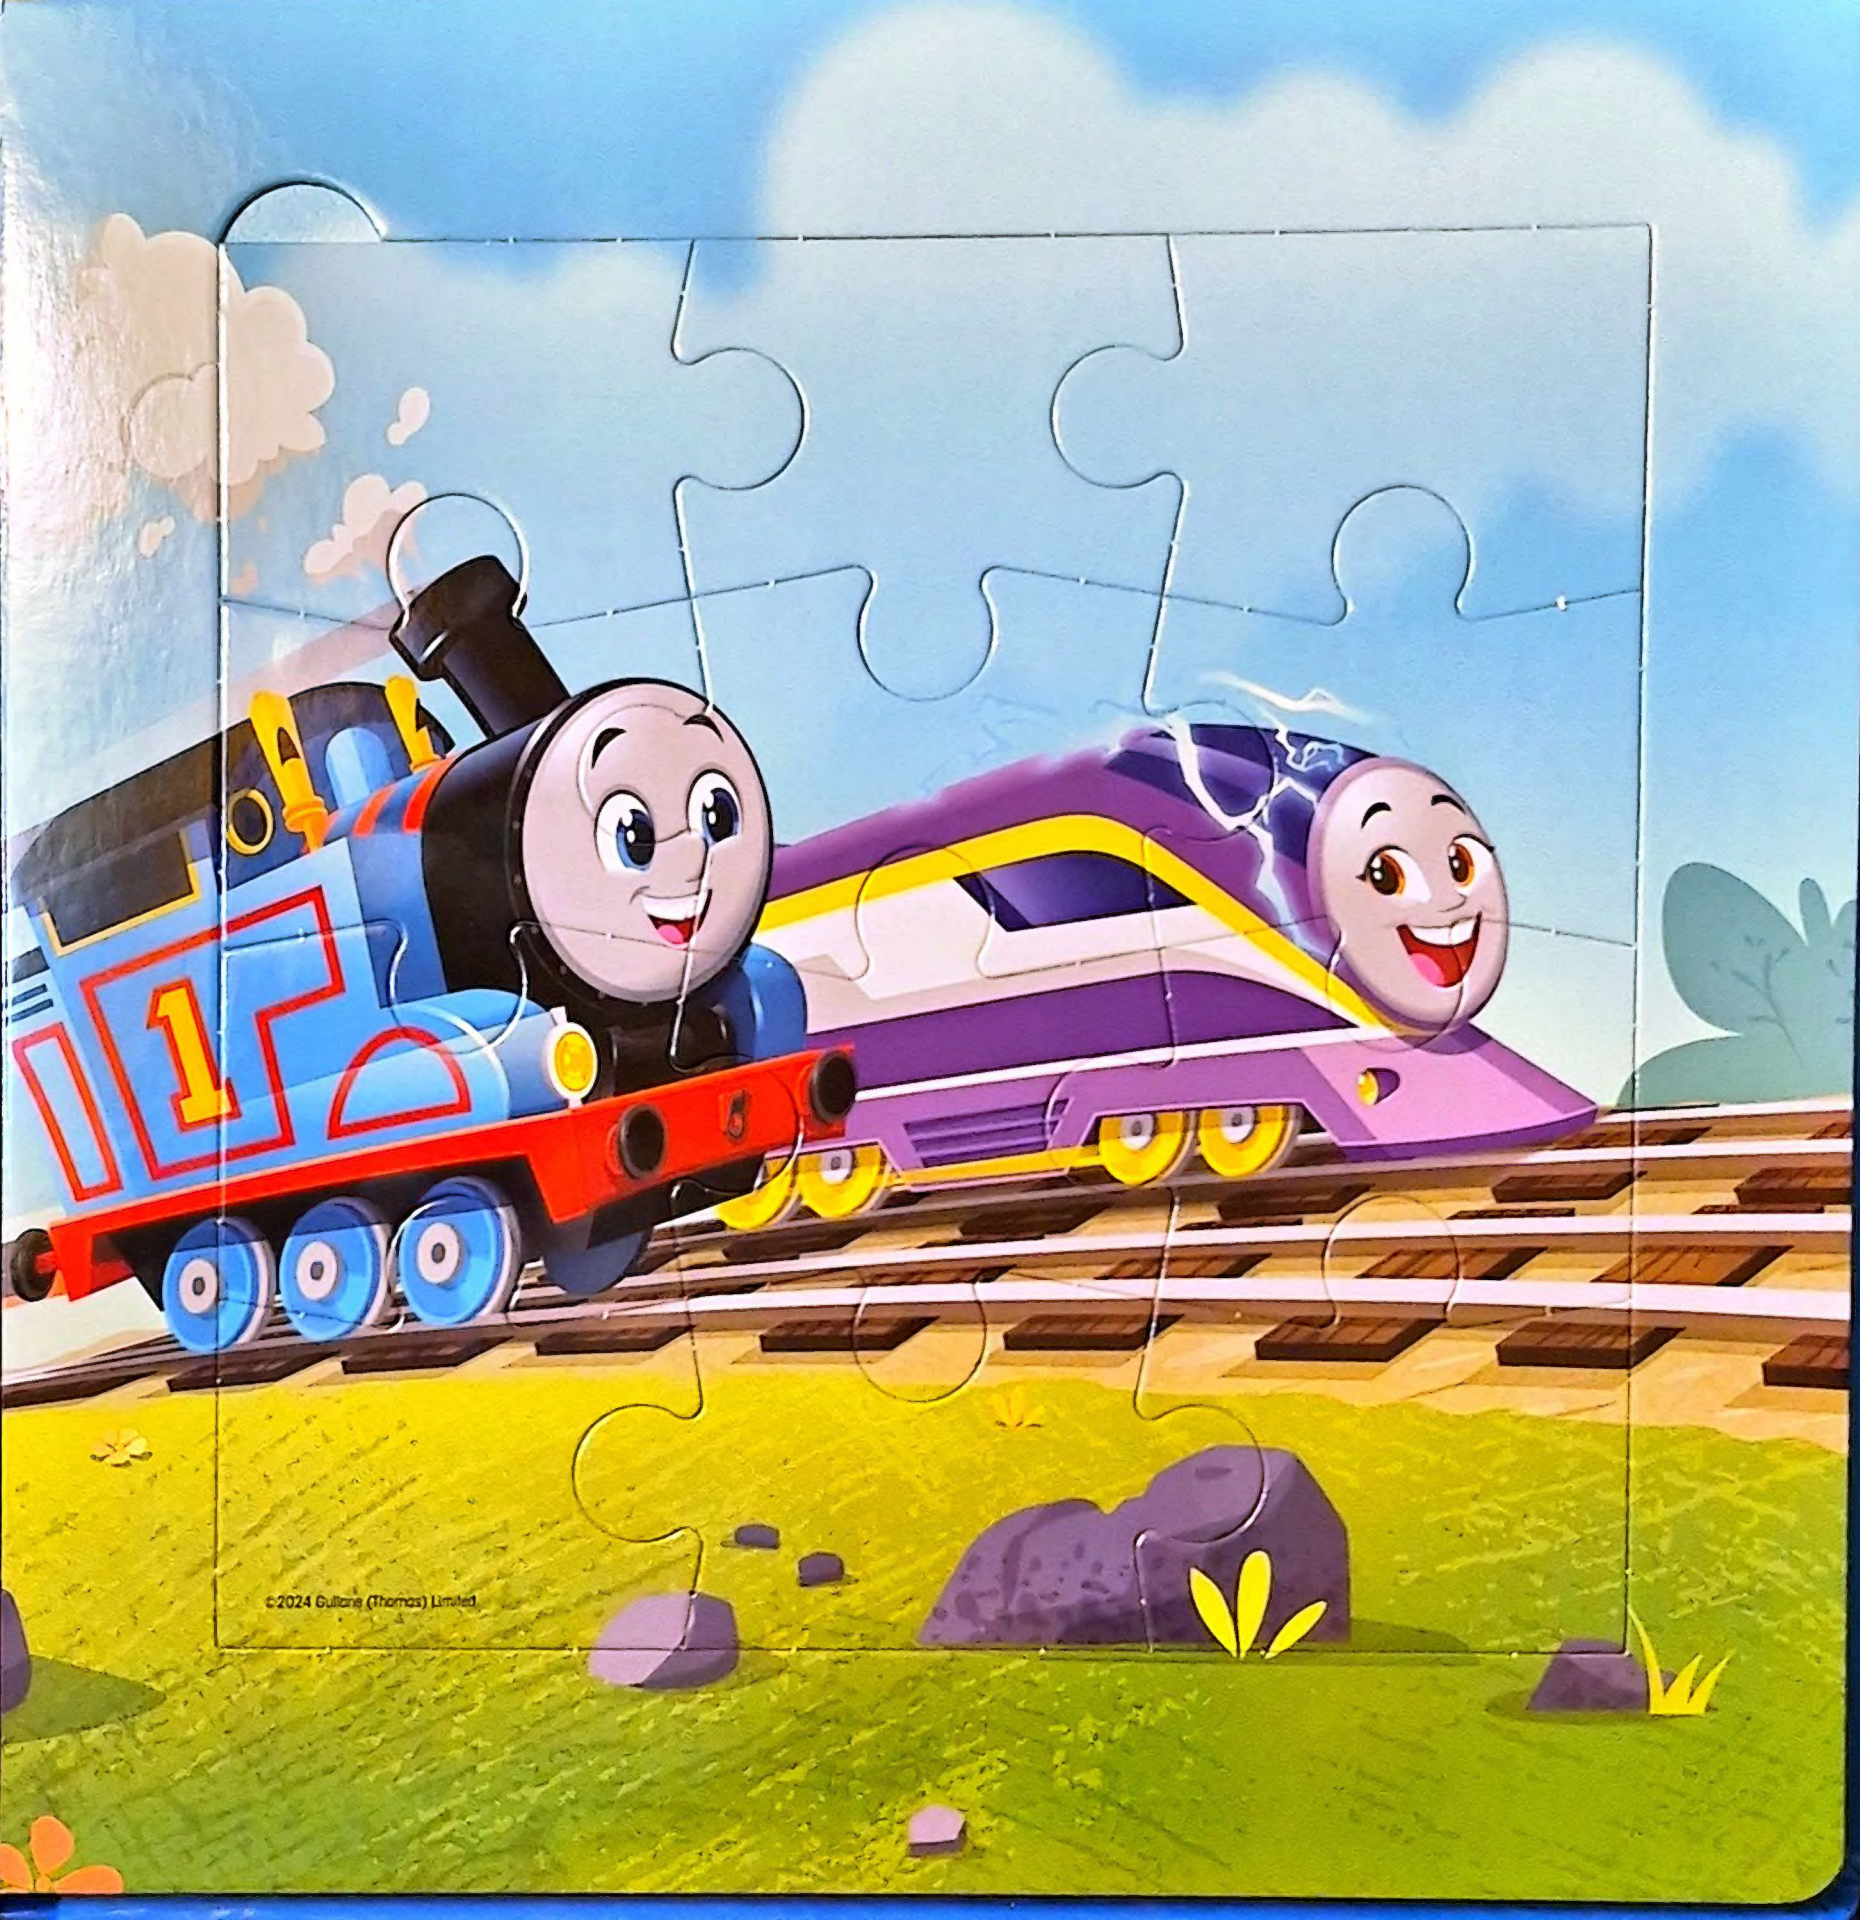

Electric!

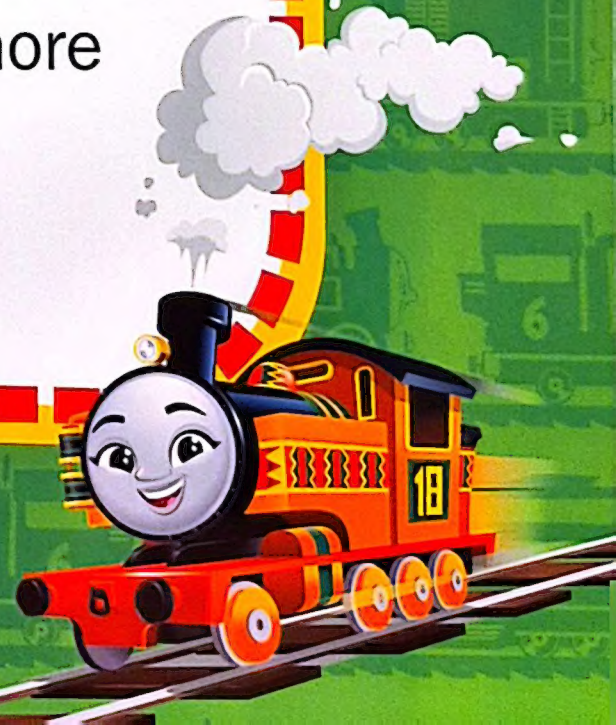

Kana is an electric engine who moves and talks fast! She's proud to be Sodor's first electric engine, but speed isn't everything! Kana still needs to learn to take care of her batteries and to stay still sometimes.

Let's Go!

While Percy is one of Sodor's smaller engines, he's also one of the most responsible, helpful, and playful. Sometimes he lacks the confidence Thomas has, but Percy is capable of more than he realizes!

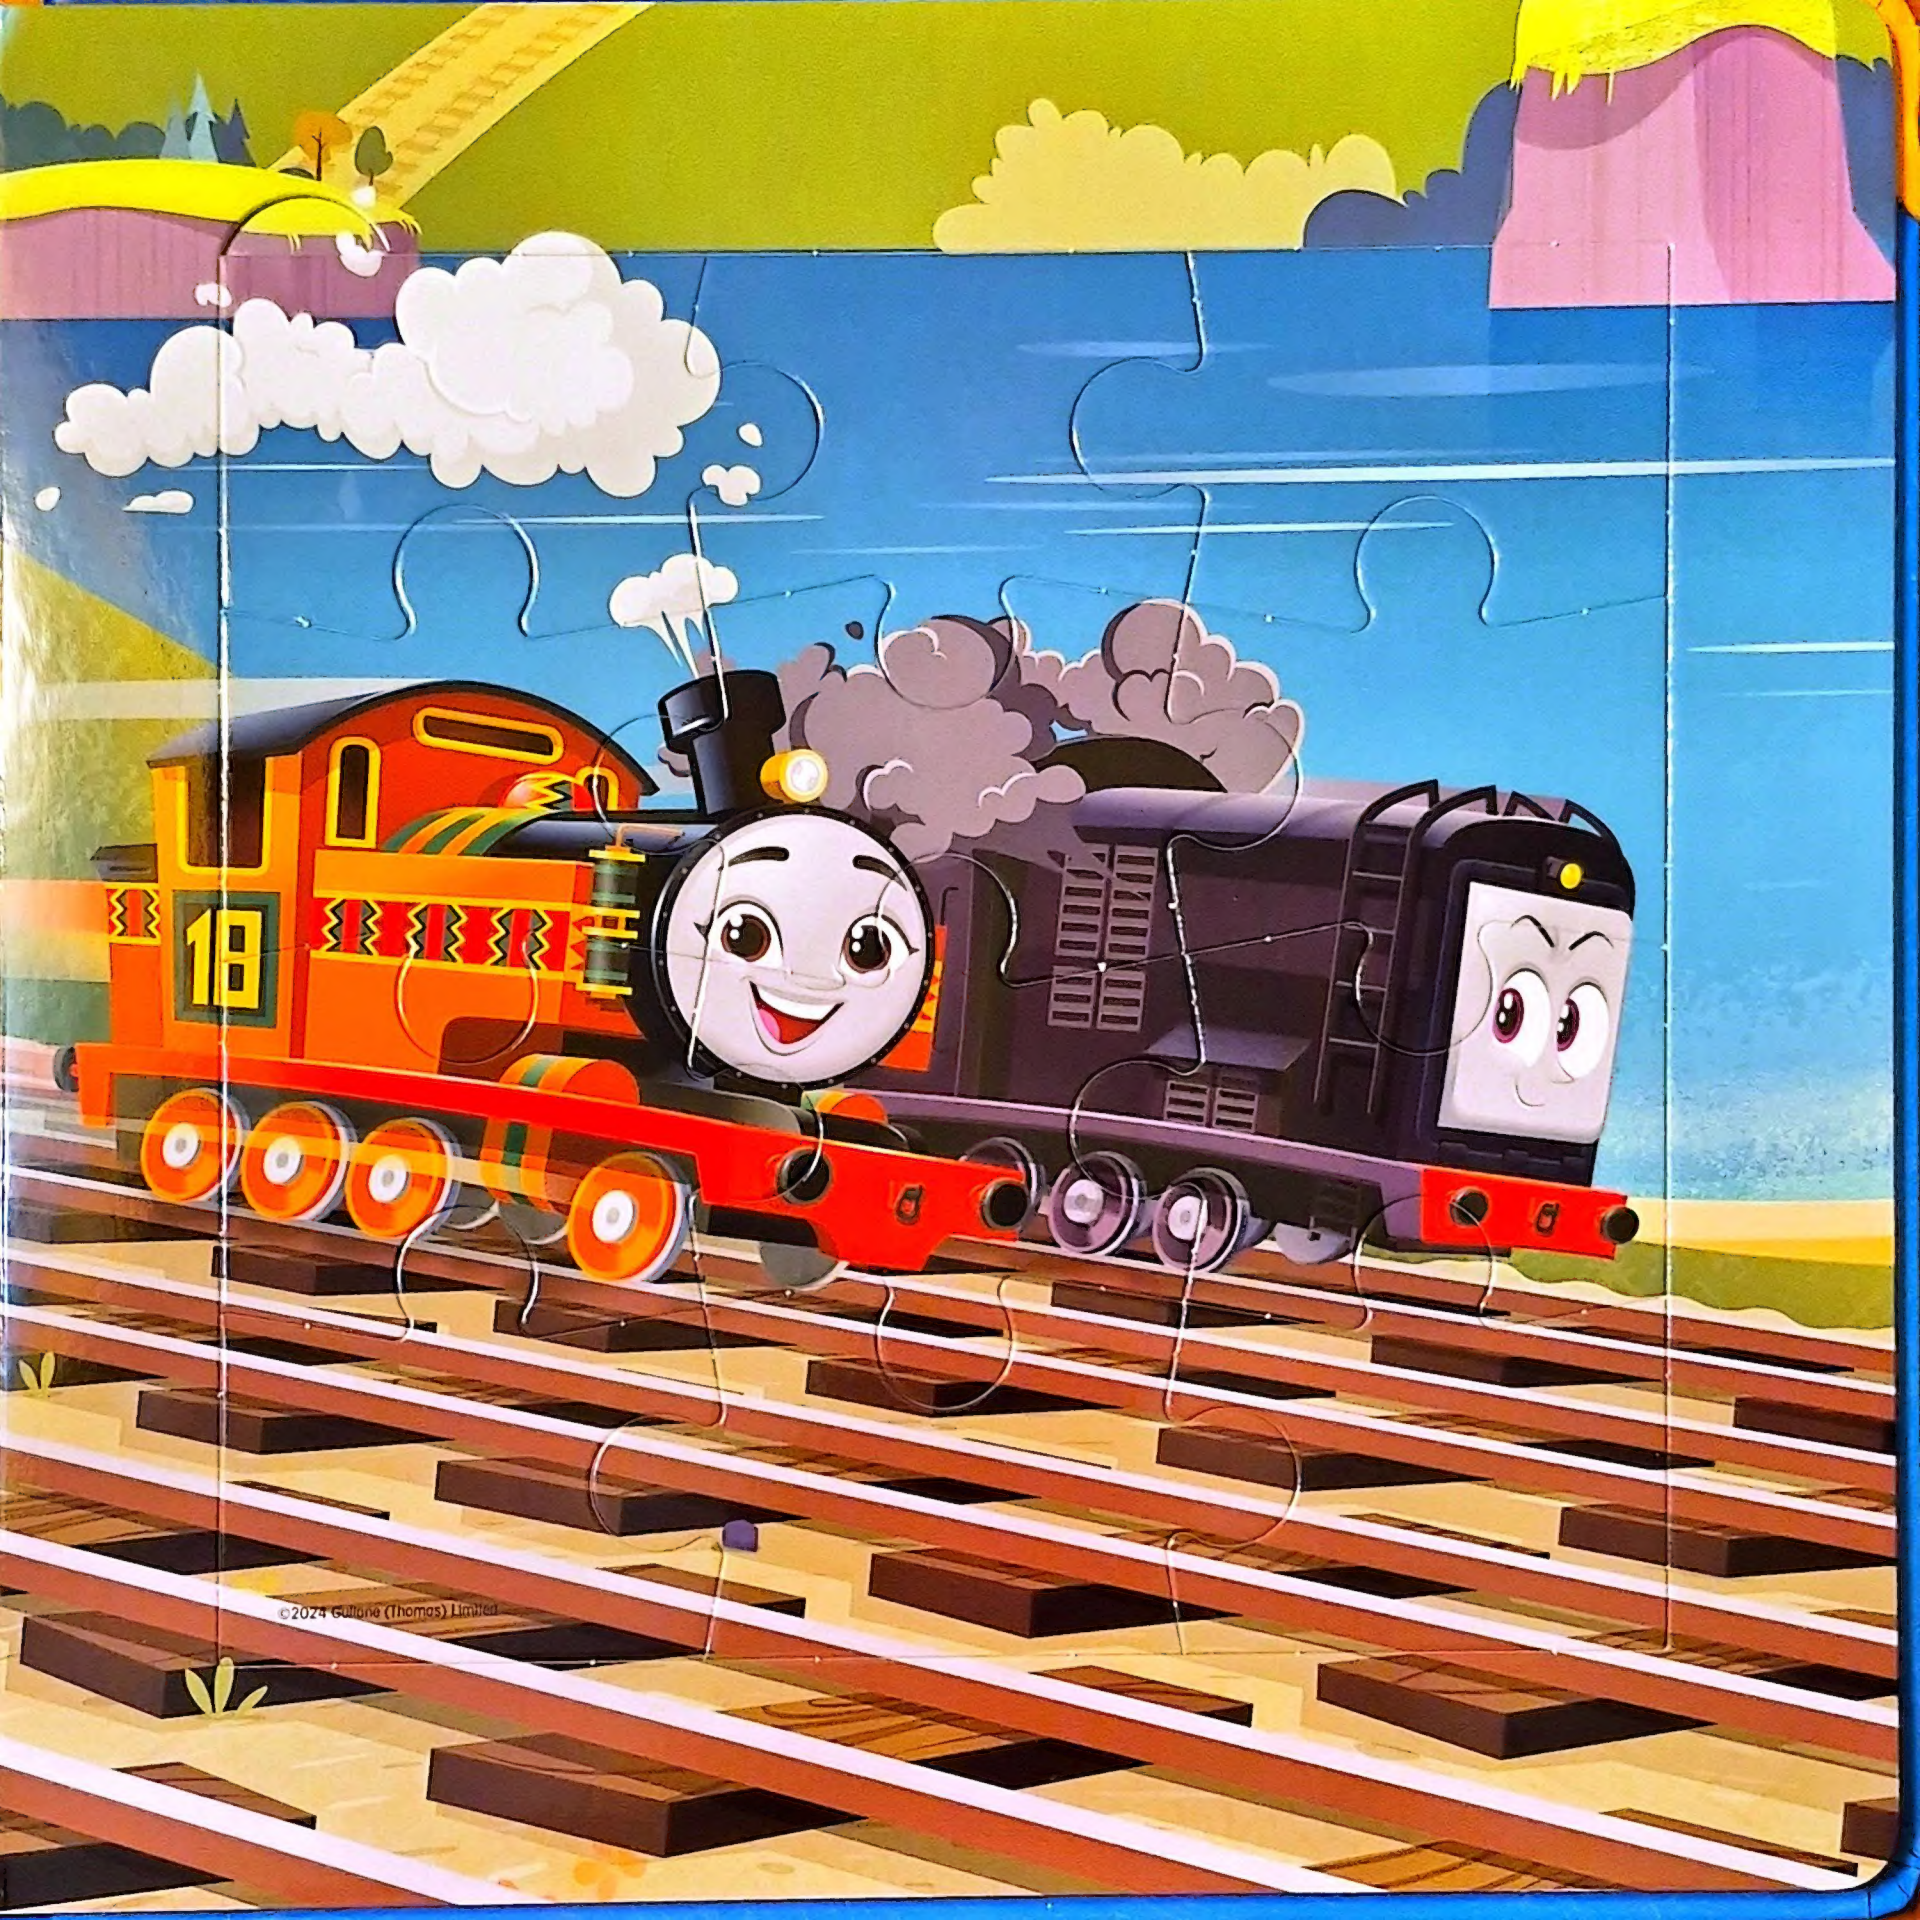

Rock and Roll!

Nia is one of the most well-traveled trains in Sodor which gives her a valuable perspective. She loves to share stories from her travels. Diesel likes to tease and compete with the other engines, but at the end of the day, he knows how to be a team player.

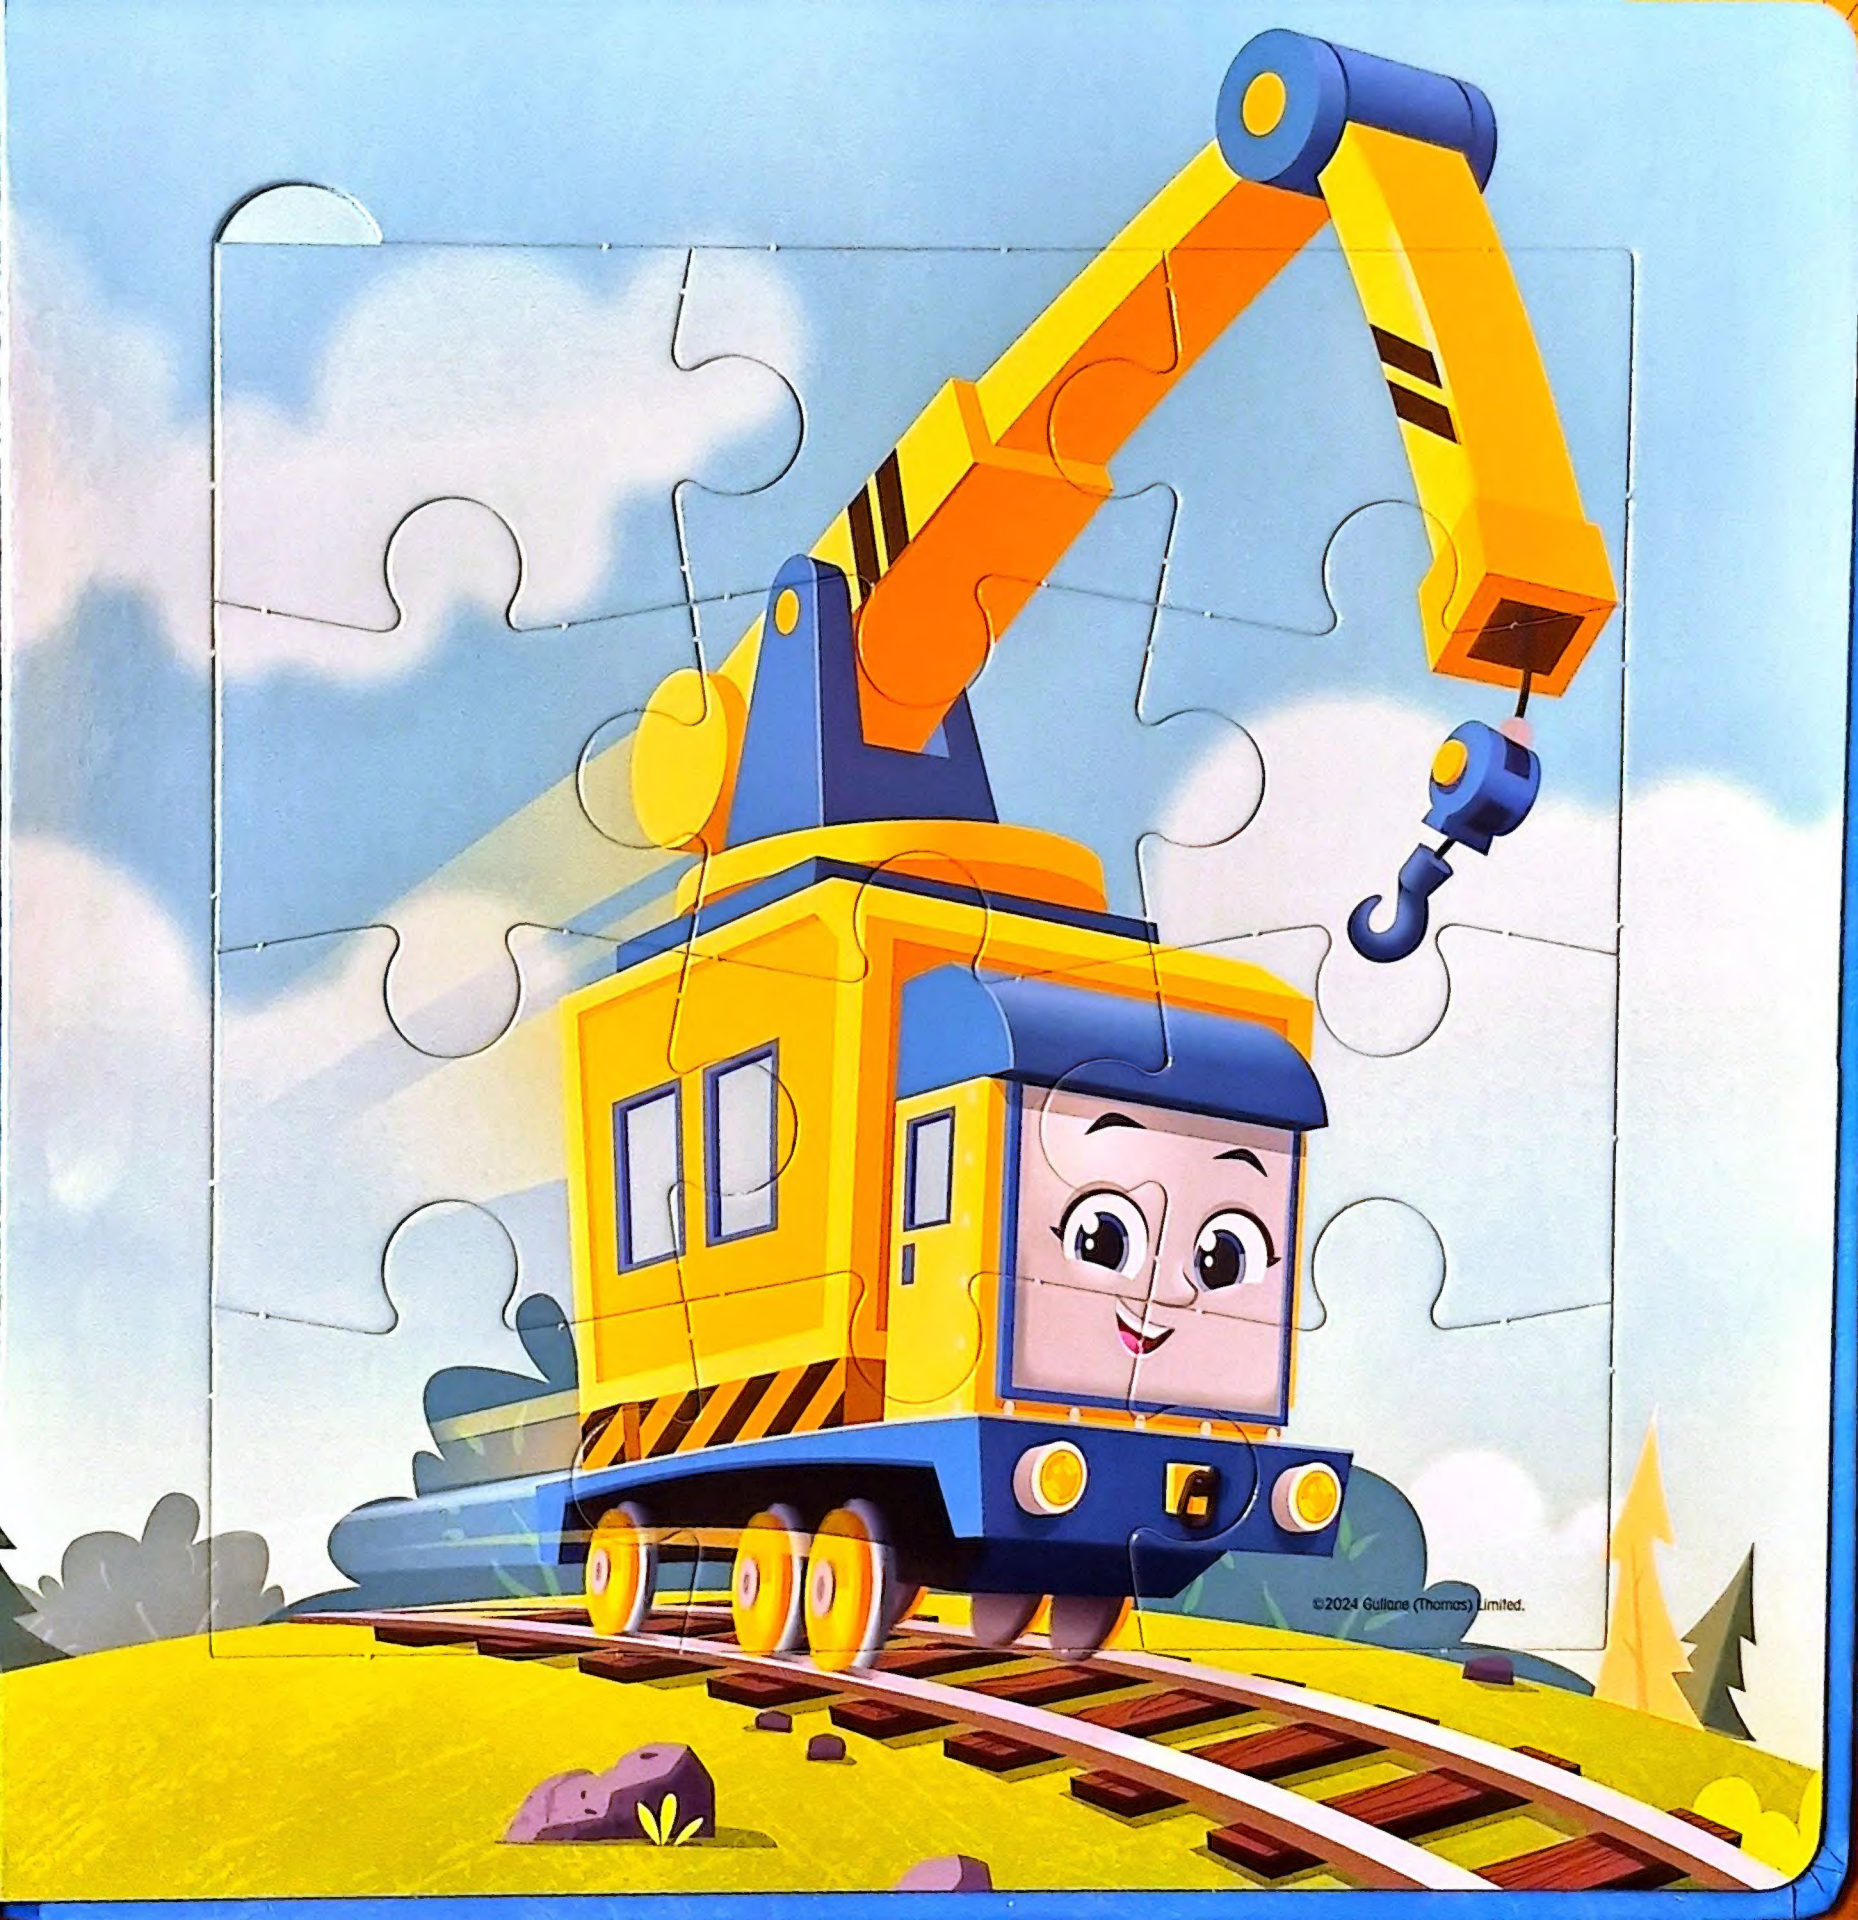

Epic!

Carly and Sandy might seem like opposites but they're best friends! Sandy is energetic and great at fixing things while Carly is reliable, mature, and super strong! Carly uses her crane to lift up her little friend.

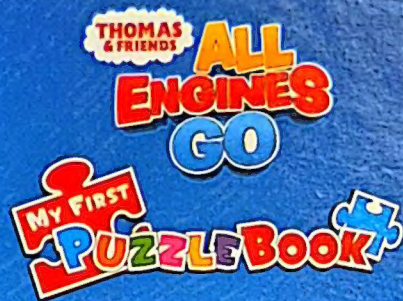

What a great pair!
